NEUROSCIENCE & BIOBEHAVIORAL REVIEWS

VOLUME 3 NUMBER 1 SPRING 1979

CONTENTS

Noradrenaline: Reward or extinction? MASON, S. T. 1

Mathematics relevant to rate-dependent drug effects. KATZ, J. L. and D. R. MCLEOD 11

The psychopharmacology of lithium. JOHNSON, F. N. 15

Search and attention: Interactions of the hippocampal-septal axis, adrenocortical and gonadal hormones. OADES, R. D. 31

ANNOUNCEMENTS

Supplement to *Neuroscience and Biobehavioral Reviews* Volume 3, 1979. *Blood Supply to the Brain of the Dolphin,* Tursiops truncatus, *With Comparative Observations on Special Aspects of the Cerebrovascular Supply of Other Vertebrates 49

Announcing a New Journal. *Neurobehavioral Toxicology* 50

Call for Papers

7 June 1979. Philadelphia, Pennsylvania. Protracted Effects of Perinatal Drug Dependence. Satellite Meeting of the Committee on Problems of Drug Dependence 51

June 26–30, 1979. Trois-Riviéres, Quebec. International Congress in Physical Education 52

July 11–13, 1979. Baltimore, Maryland. Twelfth Miles International Symposium; Polypeptide Hormones 53

August 5-10, 1979. Amsterdam, The Netherlands. Sixth International Conference on Social Science and Medicine 54

Proceedings of Workshop on Test Methods for Definition of Effects of Toxic Substances on Behavior and Neuromotor Functions 55

Harold L. Stuart Postdoctoral Fellowship in Neurobiology-Nutrition 56

NEUROSCIENCE & BIOBEHAVIORAL REVIEWS

VOLUME 3 NUMBER 2 SUMMER 1979

CONTENTS

REM sleep and information processing: Evidence from animal studies. PEARLMAN, C. A. 57

Kinds of hormonal effects on behavior: A new view. LESHNER, A. I. 69

The hypothalamus-amygdala axis and experimental gastric ulcers. HENKE, P. G. 75

The septal region and behavior: An example of the importance of genetic and experiential factors in determining effects of brain damage. DONOVICK, P. J., R. G. BURRIGHT and W. A. BENGELLOUN 83

The genetics of intermale aggressive behavior in mice: Recent research and alternative strategies. SIMON, N. G. 97

The obesity of middle age: A common variety of Cushing's syndrome due to a chronic increase in adrenocorticotrophin (ACTH) and beta-endorphin activity. MARGULES, D. L. 107

BOOK REVIEWS

Gainer (Ed.): ***Peptides in Neurobiology.*** KUTSCHER, C. L. 113

Fuller and Thompson: ***Foundations of Behavior Genetics.*** KUTSCHER, C. L. 115

Leshner: ***An Introduction to Behavioral Endocrinology.*** KUTSCHER, C. L. 117

NEUROSCIENCE & BIOBEHAVIORAL REVIEWS

VOLUME 3 NUMBER 3 FALL 1979

CONTENTS

Catecholamines and cyclic nucleotides in the modulation of superior cervical ganglia. BLACK, A. C., JR., J. Y. JEW, J. R. WEST, J. K. WAMSLEY, D. SANDQUIST and T. H. WILLIAMS 125

Combined effects of ethanol and stimulants on behavior and physiology. HOLLOWAY, J. A. and F. A. HOLLOWAY 137

A reconsideration of the concept of drug dependence. JEFFERYS, D., T. P. S. OEI and G. SINGER 149

Beta-endorphin and endoloxone: Hormones of the autonomic nervous system for the conservation or expenditure of bodily resources and energy in anticipation of famine or feast. MARGULES, D. L. 155

Human feeding behavior. BELLISLE, F. 163

Cannabinoids: Definitional ambiguities and a proposal. WEISSMAN, A. and G. M. MILNE .. 171

ANNOUNCEMENTS 175

NEUROSCIENCE & BIOBEHAVIORAL REVIEWS

VOLUME 3 NUMBER 4 WINTER 1979

CONTENTS

Changes in body temperature after administration of amino acids, peptides, dopamine, neuroleptics and related agents. CLARK, W. G. 179

Developmental protein malnutrition: Influences on the central nervous system of the rat. RESNICK, O., M. MILLER, W. FORBES, R. HALL, T. KEMPER, J. BRONZINO and P. J. MORGANE 233

Stress, behavioral arousal, and open field activity—A reexamination of emotionality in the rat. ROTH, K. A. and R. J. KATZ 247

Differentiation of coital behavior in mammals: A comparative analysis. BAUM, M. J. 265

Endogenous opiates: Through 1978. OLSON, G. A., R. D. OLSON, A. J. KASTIN and D. H. COY 285

Neurobehavioral evidence for the involvement of the vomeronasal system in mammalian reproduction. WYSOCKI, C. J. 301
